WELCOME TO THE 2024-2025 SCHOOL YEAR!

Lincoln Family,

Welcome to the 2024-2025 school year...we are humbled to be entrusted to partner with you in educating your children. We aim to provide a strong educational foundation for the youth of our community. Accompanying our educational program is a myriad of co-curricular and extra-curricular activities that supplement the learning in the classroom and provide enriching opportunities for our students. We believe that our academic and other curricular programs provide authentic and rewarding learning opportunities for each of our students. It is our mission to pursue excellence in all we do. Our first priority is being student-centered as we work to ensure that we are providing students a challenging educational environment which helps develop the mastery of knowledge, enhance critical thinking skills and assist students in appropriate social-emotional growth.

A successful educational experience is built upon a strong partnership between families and school. As educators, we work to reinforce important family values within our schools, and families work to support the work which educators are engaged in with their children. We hope our partnership this year allows us to strengthen this bond as we work to be the best we can be for our children. We will continue to ensure quality communication via our webpage, email, monthly newsletters, Final Forms, phone calls, and classroom communication systems in such a manner that puts important information at your fingertips.

We are here to serve. We encourage you to contact us with your questions or any input which you might offer. Lincoln is just a piece of the Warren City School District; as we team with the Superintendent, Central Office Administration, Lincoln Staff and the Board of Education to provide a safe, nurturing learning environment for our entire student body. Have a wonderful 2024-2025 school year and stay healthy!

Educationally,

LINCOLN PK-8 ADMINISTRATIVE TEAM

Creating Pathways of Success for All Students
