

Butler Museum Field Trip

The 4th graders at McGuffey School recently visited the Butler Institute of American Art in Youngstown, Ohio. This visit was a part of the “Our Good Neighbor” program offered through the Butler Institute. Below are some photos from the field trip. One of McGuffey’s retired teachers, Mrs. Beth Lowe, is a docent at the Butler and was there to share the exhibits with our students. Our McGuffey students were congratulated on their positive behavior during the visit.
