January 30, 2023

Dear McGuffey Parents/Guardians:

Your McGuffey 8th grader will be attending high school very soon, and much of high school is spent preparing for life after graduation. While graduation may seem far into the future, it is not too soon for students to begin thinking about life after high school. They must begin considering all of the opportunities available to them. Undoubtedly, the best way for students to get excited about their future and make informed decisions is to let them experience some of the possibilities first hand.

On **Tuesday, March 21, 2023**, your 8th grader will have the opportunity to attend the ***TCTC Eighth Grade Experience. This event will take place from 11:15am-1:10pm at the Trumbull Career and Technical Center.*** They will review options for students in high school and TCTC students will highlight necessary steps to find success with these options. Most importantly, your student will get to tour several careers/programs and will participate in hands-on experiences in the labs.

With over 30 careers in one building, TCTC provides a unique opportunity for students to visit and see many future options under one roof. By considering their skills, strengths, and passions, students will have an engaging experience that will be helpful as they enter their final four years of school.

Buses will pick up students from McGuffey at approximately 10:55am, transport them to TCTC for the program, and return them to McGuffey by approximately 1:30pm.

I look forward to having our students explore these wonderful career opportunities! All McGuffey Eighth Graders are invited.

Kind Regards,
R. Middleton, LPSC
School Counselor, McGuffey Grades 5-8
